COBIANWD

COLORS & FINISHES GUIDE

Material-Specific Finish Options | Exterior & Interior Combinations

1. FINISH OPTIONS BY MATERIAL

Cobian finish selections are organized by material. Available combinations vary by product, model and configuration.

Material	Available colors & finishes
Vinyl	White Black White Inside / Black Outside
uPVC / PVC	White Black White Inside / Black Outside Black Brown Sheffield Oak Alpine Nussbaum
Aluminum	White Clay Black Nussbaum
Thermal Break Aluminum	White Black Nussbaum White Inside / Black Outside White / Nussbaum

2. TWO-TONE & DUAL-FINISH OPTIONS

Vinyl and uPVC / PVC: White Inside / Black Outside is available as a defined two-tone option.
Thermal Break Aluminum: Nussbaum is available as a complete finish. Dual-finish combinations include White Inside / Black Outside and White / Nussbaum. For White / Nussbaum, the interior/exterior orientation may be inverted where the selected system and project configuration permit.

3. SELECTION NOTES

Finish availability is tied to the selected material and system. A finish shown for one material should not be assumed to be available on another. Final finish selection should be confirmed with the specific window or door configuration before ordering.

Color representation note. Printed and on-screen colors are for reference only. Final appearance may vary due to material, texture, coating or laminate, lighting and display conditions. Physical samples should be used when exact color matching is required.
