PRODUCT & SYSTEM GUIDE

Windows & Doors | Professional Resources

This guide presents Cobian's window and door collection, with available materials, systems and configurations for residential and architectural projects.

MATERIAL	SYSTEM	CURRENT COBIAN APPLICATION
Vinyl	REHAU Exelis 190	Fixed / Picture Windows
uPVC	REHAU EuroDesign 4500	Fixed Windows Tilt & Turn Windows Hinged Doors
uPVC	REHAU EuroSlide 920	Sliding Windows
uPVC	REHAU High-Design Slide 920-86	Sliding Patio Doors
Aluminum	COVENT Supra 65	Fixed Windows Concealed-Sash Tilt & Turn Windows
Aluminum	COVENT 4600	Sliding Windows
Aluminum	COVENT 10000	Sliding Patio Doors
Thermal Break Aluminum	COVENT Imperial	Fixed Windows Tilt & Turn Windows Single & Double Hinged Doors
Thermal Break Aluminum	Matra 110 RPT	Sliding Patio Doors
Thermal Break Aluminum	ALG Vista RPT	Fixed Windows, Casement Tilt & Turn Windows

Manufacturer catalogs and technical datasheets provide additional information for each system. Current product availability and configurations are defined by Cobian's product offering and project requirements.

1. VINYL

REHAU Exelis 190

Current Cobian application: Fixed / Picture Windows

Cobian currently uses the Exelis 190 system for non-operable Fixed / Picture Window applications. The original REHAU system documentation may describe additional operating configurations; availability through Cobian is determined by the products shown on the Cobian website and configurator.

Manufacturer resource: REHAU Exelis 190 System Datasheet

2. uPVC

REHAU EuroDesign 4500

Current Cobian applications: Fixed Windows | Tilt & Turn Windows | Hinged Doors

A multi-application uPVC system used by Cobian for fixed glazing, tilt-and-turn windows and hinged door configurations. Product-specific sizes, glazing, performance and configuration limits must be confirmed in the corresponding technical resources.

Manufacturer resources: REHAU EuroDesign 4500 documentation and system catalog

REHAU EuroSlide 920

Current Cobian application: Sliding Windows

Cobian uses the EuroSlide 920 system for horizontal sliding window applications.

Manufacturer resource: REHAU EuroSlide 920 system documentation

REHAU High-Design Slide 920-86

Current Cobian application: Sliding Patio Doors

This system is used for Cobian uPVC sliding patio door applications. Available configurations and project limits are defined by Cobian's current product offering and project requirements.

Manufacturer resource: REHAU High-Design Slide 920-86 documentation

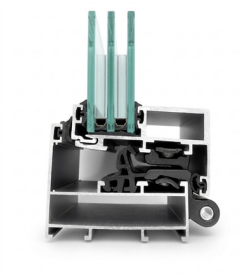

3. ALUMINUM

COVENT Supra 65

Current Cobian applications: Fixed Windows | Concealed-Sash Tilt & Turn Windows

Cobian uses the Supra 65 system for fixed window applications and concealed-sash tilt-and-turn configurations.

Manufacturer resource: COVENT Supra 65 technical documentation

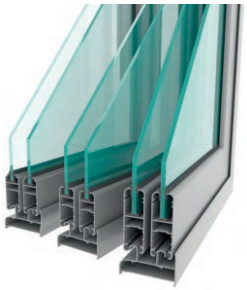

COVENT 4600

Current Cobian application: Sliding Windows

Cobian uses the 4600 system for aluminum sliding window applications.

Manufacturer resource: COVENT 4600 technical documentation

COVENT 10000

Current Cobian application: Sliding Patio Doors

Cobian uses the 10000 system for aluminum sliding patio door applications.

Manufacturer resource: COVENT 10000 technical documentation

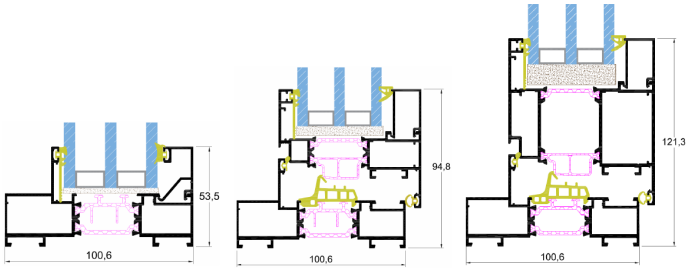

4. THERMAL BREAK ALUMINUM

COVENT Imperial

Current Cobian applications: Fixed Windows | Tilt & Turn Windows | Single Hinged Doors | Double Hinged Doors

Imperial is Cobian's thermal-break aluminum system for fixed windows, tilt-and-turn windows and hinged door applications.

Manufacturer resource: COVENT Imperial technical documentation

Matra 110 RPT

Current Cobian application: Sliding Patio Doors

Cobian uses the Matra 110 RPT system for thermal-break aluminum sliding patio door applications. **Manufacturer resource:** Matra 110 RPT technical documentation

ALG VISTA RPT

Current Cobian application: Fixed, Casement & Tilt-Turn Windows

Cobian uses the ALG VISTA RPT system for thermal-break aluminum window applications requiring a concealed-sash design, slim sightlines and increased glass area.

Manufacturer resource: ALG VISTA RPT technical documentation

HOW TO USE THIS GUIDE

This guide presents Cobian's window and door collection by material, product type and system, providing a clear overview of the solutions available for residential and architectural projects.

For technical selection and specification, use this guide together with the corresponding manufacturer catalog and Cobian technical resources as they become available.

RESOURCE	PURPOSE
Cobian Product & System Guide	Presents Cobian's current window and door collection by material, product type and system.
Manufacturer Catalogs	Original manufacturer information for the relevant profile systems. These documents are not modified by Cobian.
Sizing & Configuration Guide	Cobian product sizes, available configurations and manufacturing limits. To be issued separately.
Glass & Glazing Guide	Available Cobian glazing options and project-specific glass information. To be issued separately.
Colors & Finishes Guide	Available finishes by material and product. To be issued separately.
Performance & Certifications	Verified performance data and applicable approvals by product/system. To be issued separately.
Installation Information	Applicable installation guidance and details by system. To be issued separately.

Document control note: Product availability, configurations, colors, glazing, dimensions, performance data and certifications may vary by system and project. Refer to current Cobian documentation for the applicable product and project requirements.
